

## Willy B

American Artist Willy B is best known for his Pop Art/Graffiti style. His passion for art started at a very early age. As a child, he was surrounded by music and art thanks to his parents.

He enjoys working with bright spray and acrylic paints, bringing the canvas to life with each brush stroke he makes. Also, Willy B dabbles in the Multi Media realm. His art work has been described as a combination of Haring, Kaufman, Banksy, Warhol and Rockwell, which he modestly accepts.

Today Willy B's artwork is a quirky mix. He brings an explosive and fun feel to his work by using a unique balance of color, composition and energy.

When not creating his own projects Willy B also enjoys collaboration with fellow artists from around the world.
